

Types of distributed systems

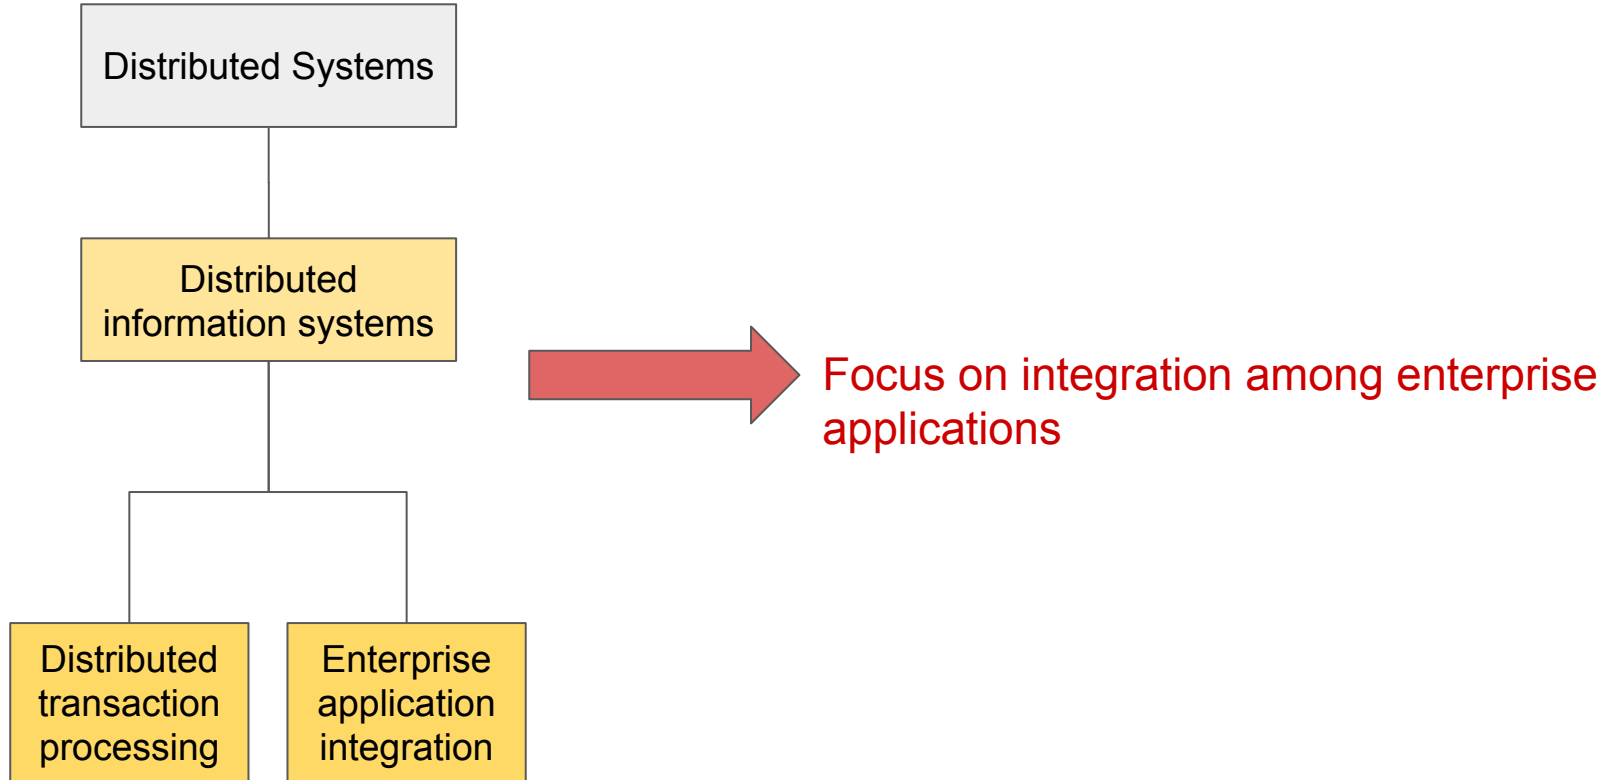

Based on the classification proposed by Van Steen and Tanenbaum - Distributed Systems, 3rd Edition.

Types of distributed systems

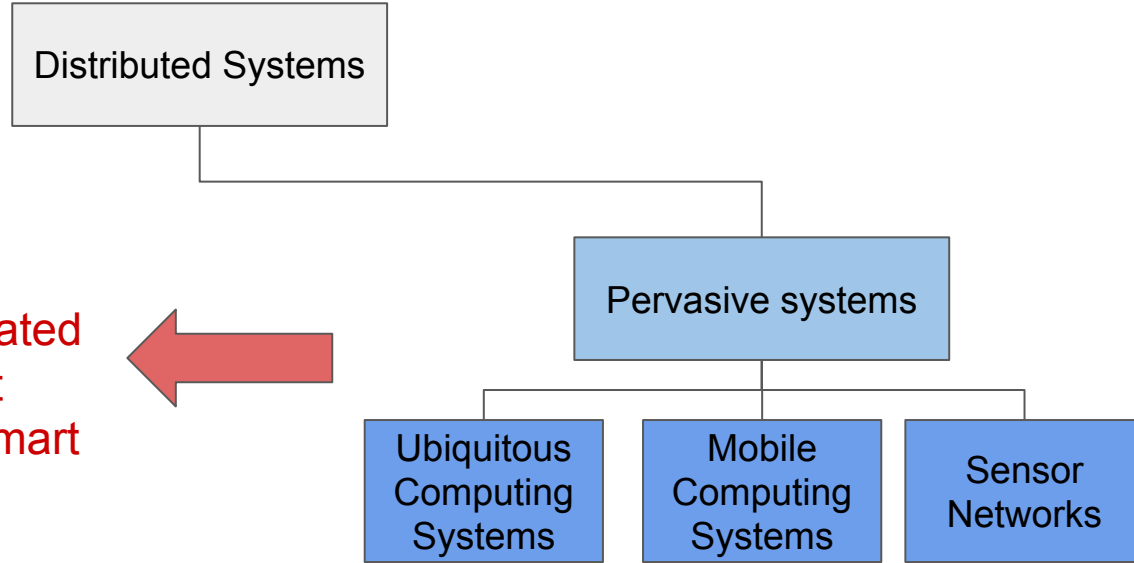

Based on the classification proposed by Van Steen and Tanenbaum - Distributed Systems, 3rd Edition.

Types of distributed systems

Types of distributed systems

Focus on systems distributed/integrated in different environments (ex.: smart house, smart farm, body network, smart city, smart campus and so on)

Cloud, Edge, Things

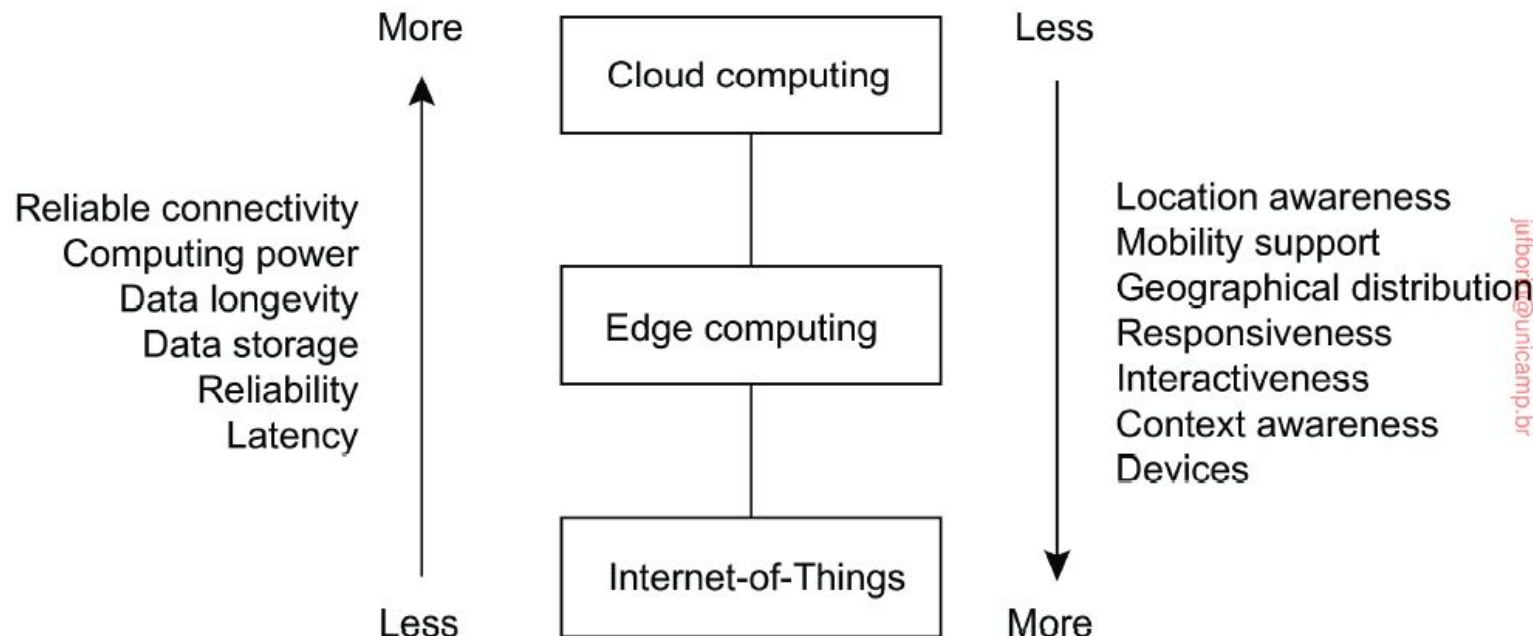

Figure 1.17: A hierarchical view from clouds to devices (adapted from Yousefpour et al. [2019]).
